### About Me

Hi, I'm a Computer Science Engineer and I graduated from the Universidad Catolica "Campus Santa Clara" in Honduras. My main focus is **Front-End development (Junior Level) and UI Design (User Interface Design)**. Coding and web design are my main skills. My goal is to create attractive, intuitive and well-structured web pages and designs, in order to provide the best possible product to people. My goal is to find a position as a Front-End developer to keep improving my skills and knowledge.
